MuseScore Plugin Instructions - Mac

- 1. Close MuseScore
- 2. Download the plugin from Figurenotes.org (FNcolournotes.qml)
- 3. Go to Applications
- 4. Right click on MuseScore and choose 'Show Package Contents' to reveal the contents directory.

- In a new finder window, open Downloads to find the plugin (search for FNcolournotes.qml if you can't find it). Drag this file into the MuseScore folder you opened in step 5.
 - If the file has downloaded as .qml.txt Right click and go to Get Info. Delete the .txt. This will open a prompt window. Click 'Use .qml'
 - If you have a zip file double click on it to unzip.
- 7. Now open MuseScore and see if the plugins are now available within your plugins list.
- 8. If the plugin is not showing up, go to Plugin Manager under Plugins in the top menu bar

9. Tick the tickbox next to FNcolournotes and click ok. (You can create a shortcut for this plugin in this pop up box too, if you want.)

- 10. If there is no option under Plugins showing 'Notes' and an arrow through to showing 'Figurenotes Colour Notes' then try quitting MuseScore and opening it again.
- 11. You can now use this to colour/uncolour your score by clicking on Figurenotes Colour Notes in the drop down menu.
